GREEN CAMPUS PROTOCOL

MIC Arts & Science College is committed to fostering a clean and green campus by embracing, implementing, and advocating environmentally sustainable practices among students and staff. The initiative aims to instill eco-consciousness within the institution and beyond.

The vision of the college is to create a harmonious blend of ecological awareness, practical green practices, and education. This is achieved by integrating sustainable and eco-friendly systems into campus operations and encouraging their adoption in the broader community.

Key Objectives of the Green Campus Protocol:

- 1. Promote Environmental Awareness:**
Educate and inspire students and staff to adopt a sustainable lifestyle.
- 2. Encourage Green Practices:**
Implement and follow eco-friendly measures such as waste management, energy conservation, and water resource management.
- 3. Collaborative Sustainability Efforts:**
Work in collaboration with the Government of Kerala's green initiatives and actively partner with the *Haritha Karma Sena* to uphold the Green Protocol.
- 4. Commitment to Green Protocol:**
The college adheres to the Green Protocol guidelines established by the Government of Kerala. By integrating these standards into its operational framework, the institution ensures compliance with eco-friendly practices, emphasizing waste reduction, recycling, and proper resource management.
- 5. Role of Haritha Karma Sena:**
The collaboration with *Haritha Karma Sena* amplifies the college's commitment to sustainability. This partnership aids in efficient waste segregation, proper disposal mechanisms, and increased awareness campaigns about environmental stewardship.

MIC Arts & Science College envisions itself as a pioneer in redefining green culture within educational institutions, creating a model for sustainable development that can inspire other communities and organizations.
